

# Mastering En-ROADS Impacts

použiť

- na začiatku: môže byť veľmi zle
- na konci: čo sa nám podarilo
- aj keď bude dobre: bude potrebné prispôsobenie a odolnosť

ako

- nechať priestor na spracovanie zlej informácie
- Môžeme urobiť veľa dobrého. Čo budeme testovať, aby sa nám darilo lepšie?
- Mnohé následky nevieme zmeniť

## Straty

EU, 2020

In 2020, climate-related economic losses stood at €27 per EU inhabitant. The Member State with the highest loss per inhabitant (almost three times higher than the EU average) was Greece (€91 per inhabitant), followed by France (€62) and Ireland (€42). The lowest losses per inhabitant were registered in Bulgaria (€0.7 per inhabitant), Slovenia and Slovakia (both €4).

svet, 2050

The global cost of climate change damage is estimated to be between \$1.7 trillion and \$3.1 trillion per year by 2050. This includes the cost of damage to infrastructure, property, agriculture, and human health.
